Github: <https://github.com/Kawsar-Uddin-Ahmed>

Gender: Male **Date of birth:** 09/02/1997 **Place of birth:** Chattogram, Bangladesh **Nationality:** Bangladeshi

EDUCATION AND TRAINING

[14/03/2016 – 05/09/2021]

Bachelor of Computer Science and Engineering

International Islamic University Chittagong (IIUC) , Bangladesh

City: Chattogram | **Country:** Bangladesh | **Level in EQF:** EQF level 6

Website: <https://iiuc.ac.bd/> **Field of study:** Computer Science and Engineering **Final grade:** 3.021/4.00 **Level of EQF:** EQF Level 6

[01/07/2013 – 19/03/2015]

Higher Secondary Certificate

Patiya Government College , Chattogram , Bangladesh

City: Chattogram | **Country:** Bangladesh

Full grade: 4.33 / 5.00

[01/01/2011 – 15/01/2013]

Secondary School Certificate

Nasirabad Govt. High School, Chattogram

City: Chattogram | **Country:** Bangladesh

Final grade: 5.00 / 5.00

WORK EXPERIENCE

[01/11/2023 – 23/11/2024]

Administrative officer

I worked as the administrative officer at Karnafully Shipping and Trading Limited, a CNF company, for one year, handling administrative tasks, operational management, and accounts.

SKILLS

Linux Commands | MySQL | computer equipment | COMPUTER HARDWARE BASIC | Python (computer programming) | Microsoft Office | Microsoft Powerpoint | C/C++ | Ethical Hacking . | Python

LANGUAGE SKILLS

Mother tongue(s): Bangal (Native)

Other language(s):

English

LISTENING B1 **READING** B1 **WRITING** B1

SPOKEN PRODUCTION B1 **SPOKEN INTERACTION** B1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

PROJECTS

Penetration_Testing_Report_of_Metasploit

Conducted hands-on penetration testing and vulnerability assessment within a controlled Metasploit framework environment in 2022. Successfully scanned, identified, and analyzed security weaknesses and misconfigurations in the target system. Documented the eight different exploitation processes and findings in a structured technical report.

Link: https://github.com/Kawsar-Uddin-Ahmed/Metasploit_Penetration_testing_report

Amader Adhunik Bari

Developed a dynamic web-based rental platform to streamline the house-hunting process in Chittagong city in 2021. Designed and implemented functional features allowing users to seamlessly search for available properties ("To-Let") based on location. Managed the database architecture to store and retrieve property and user records efficiently.

Technologies Used: HTML5, CSS3, JavaScript, PHP, MySQL.

Link: https://github.com/Kawsar-Uddin-Ahmed/Amader_Adhunik_Bari

Phishing Attack Report on Windows XP

Conducted an independent, self-directed research project focusing on social engineering vectors and credential-harvesting tactics in 2023. Successfully simulated a controlled phishing deployment against a legacy Windows XP environment to analyze outdated security vulnerabilities. Prepared and published a comprehensive technical report documenting the entire exploitation lifecycle and findings.

Send Spam Email Using Python

Developed a lightweight Python script utilizing the SMTP (Simple Mail Transfer Protocol) to automate bulk email broadcasting in 2022. Configured secure server connections (TLS/SSL) and handled custom email payloads. Published the source code on GitHub to demonstrate script optimization and networking fundamentals.

Technologies Used: Python, SMTP Library, Email Modules.

Link: https://github.com/Kawsar-Uddin-Ahmed/Send_spam_email_using_python

Create Batch File For Executing Batch Command Using Python

Developed a Python automation script designed to dynamically generate and execute batch (.bat) files on Windows systems in 2022. Automated repetitive terminal tasks by running system-level commands through Python's built-in modules. Published the source code on GitHub to demonstrate OS-level automation and scripting proficiency.

Technologies Used: Python, OS Module, Subprocess Module.

HOBBIES AND INTERESTS

Shotokan Karate

I was a karate student in the Honke Shotokan Karate Do Association, Chittagong, Bangladesh. I achieved a brown belt in 2019. After that, I shifted my primary focus toward completing my academic degrees, which led me to leave the karate school.

BLOG

Cybersecurity Blogging & CTF Write-ups

Publish detailed cybersecurity articles and walkthroughs (write-ups) on Medium covering CTF challenges, including TryHackMe rooms. Author technical guides on security solutions, practical penetration testing methodologies, and defensive strategies against modern phishing techniques to educate the tech community.
