
Kawsar Uddin Ahmed Chowdhury

K.B Aman Ali Road , Master Bari , Bakolia • Chattogram, Bangladesh • kawsaruddin19@gmail.com • 01725591538

- Portfolio Website : <https://bytewriteaficionado.github.io/>

Education

International Islamic University Chittagong Bachelor of Computer Science and Engineering. CGPA:3.021 / 4.00	Chattogram, Bangladesh 05 September 2021
Patiya Government College Higher Secondary Certificate. GPA: 4.33/5.00	Chattogram, Bangladesh 09 August 2015
Secondary School Certificate Nasirabad Govt. High School GPA: 5.00/5.00	Chattogram, Bangladesh 09 May 2015

Experience

Karnafully Shipping and Trading Limited Administrative officer	Chattogram, Bangladesh 01/11/2023 – 23/11/2024
--	---

- I worked as the administrative officer at Karnafully Shipping and Trading Limited, a CNF company, for one year, handling administrative tasks, operational management, and accounts.

Skills & Interests

- **Technical:**

Languages: Python, C/C++

Security & Penetration Testing: Metasploit Framework, Ethical Hacking, Vulnerability Assessment, Phishing Simulation, Nmap.

Databases & Operating Systems: MySQL, Linux Command Line.

Hardware & Infrastructure: Computer Hardware & Systems Troubleshooting.

Developer Tools & Office Software: Git, GitHub, Medium (Technical Writing), Microsoft Office (Word, PowerPoint).
- **Language:**
Bengali: Native.
English: Professional Working Proficiency (Medium of instruction during B.Sc. in CSE).
- **Projects:**

1. Penetration_Testing_Report_of_Metasploit:

Conducted hands-on penetration testing and vulnerability assessment within a controlled Metasploit framework environment in 2022. Successfully scanned, identified, and analyzed security weaknesses and misconfigurations in the target system. Documented the eight different exploitation processes and findings in a structured technical report.

2. Amader Adhunik Bari:

Developed a dynamic web-based rental platform to streamline the house-hunting process in Chittagong city in 2021. Designed and implemented functional features allowing users to seamlessly search for available properties ("To-Let") based on location. Managed the database architecture to store and retrieve property and user records efficiently. Technologies Used: HTML5, CSS3, JavaScript, PHP, MySQL.

Link: https://github.com/Kawsar-Uddin-Ahmed/Amader_Adhunik_Bari

3. Phishing_Attack_Report_on_Windows_XP:

Conducted an independent, self-directed research project focusing on social engineering vectors and credential-harvesting tactics in 2023. Successfully simulated a controlled phishing deployment against a legacy Windows XP environment to analyze outdated security vulnerabilities. Prepared and published a comprehensive technical report documenting the entire exploitation lifecycle and findings.

4. Send Spam Email Using Python:

Developed a lightweight Python script utilizing the SMTP (Simple Mail Transfer Protocol) to automate bulk email broadcasting in 2022. Configured secure server connections (TLS/SSL) and handled custom email payloads. Published the source code on GitHub to demonstrate script optimization and networking fundamentals. Technologies Used: Python, SMTP Library, Email Modules.

- **Interests:**

1. Cybersecurity Blogging & CTF Write-ups:

Publish detailed cybersecurity articles and walkthroughs (write-ups) on Medium covering CTF challenges, including TryHackMe rooms. Author technical guides on security solutions, practical penetration testing methodologies, and defensive strategies against modern phishing techniques to educate the tech community.
